• Bhiwadi, Rajasthan, India • NEED SPONSORSHIP • INDIAN

Summary

Process Quality Assurance professional with over 6 years of experience in quality assurance and quality control, expert in process improvement and defect analysis. Key achievements include the amplification of production output by 40% and the reduction of error rates to below 2%, contributing to 80% business growth over four years. Seeking a Process Quality Assurance Engineer position at Your company, where I bring my quality control and inspection skills to support your mission of ensuring product and process compliance with the highest standards of quality and performance. NEED SPONSORSHIP

Skills

Core Acumen:

Process Improvement • collaborated & communicated with Team • Quality Control • Quality Assurance • Production Efficiency • Problem Solving • Cross-functional Coordination • Troubleshooting • Corrective Action • Preventive Action • Documentation Control • Audit Readiness • Inspection Planning • Defect Reduction • Compliance

Technical Skills:

Piping Inspection • PDCA • QA/QC Inspection • Quality KPIs • Documentation • Final Inspection • Quality Tools Basic (APQP • PPAP • SPC • FMEA • MSA) • Vendor Inspection • IQC • CAPA • ASME Section V • ISO 9001 • NCR • 8D • API • ITP • NDT Level II • Material UTM Tested

Measurement Instruments:

Micrometers • Bevel Protractor • Wire Gauge • Rockwell Hardness Tester • Profile Projector • Internal Taper & External Taper Gauge • Portable Hardness Tester • Bore Dial Gauge • Universal Testing Machine • Contour • Vernier Caliper (Manual & Digital) • Surface Roughness Testers

Certifications

ASNT Level II – NDT Inspection — CORE Training Engineering Services Pvt. Ltd

Key Achievements

- | | | |
|--|--|--|
|  Amplified production output by 40% and enhanced inventory turnover by 15% by implementing an effective FIFO system, while reducing error rates to below 2% |  Delivered 80% business growth over four years by supervising workshop operations, improving diagnostics, repair quality, and customer satisfaction |  Performed and reviewed NDT inspections including UT, MT, PT, and VT in compliance with ASME Section V, ensuring product quality and client specification adherence |
|  Oversaw root cause analysis using 8D methodology, driving defect reduction and continuous quality improvement |  Executed and preserved QMS aligned with API, ISO 9001, and ASME, improving compliance, process efficiency, and audit readiness |  Improved team productivity by 15% through workflow optimization and software-based process improvements in technical support operations |

Key Achievements

-  Contributed to 30% higher production efficiency during Green ply plant installation and setup activities
-  Decreased machine downtime by 15% and machine failures by 20% through process optimization and preventive maintenance programs
-  Maintained product rejection rates below 2% and reduced raw material wastage by 8% through close process monitoring and quality control

Experience

WELLCARE Oil Tools Pvt. Ltd

India

Quality Engineer / Inspection Engineer

10/2019 - Present

- Oversaw QA/QC activities for petroleum parts manufacturing, ensuring compliance with client specifications and industry standards, and managed end-to-end QA/QC for Oil & Gas tools.
- Prepared and implemented comprehensive ITPs, Quality Plans, and inspection procedures, while performing inspections to meet customer and international standards.
- Conducted dimensional inspections using advanced measuring instruments, and performed ASNT NDT Level II examinations, including VT, MT, PT, and UT.
- Escalated production output by 40%, improved inventory turnover by 15%, and reduced error rates to below 2% through effective FIFO system implementation.
- Led root cause analysis utilizing 8D methodology, resulting in defect reduction and continuous product quality improvement.
- Ensured compliance with API, ISO, and ASME standards, maintaining QMS, and coordinating NCRs for corrective actions with clients and third-party inspectors.
- Collaborated with cross-functional teams to resolve manufacturing quality issues, contributing to 80% business growth over four years.

TeamLease Service Ltd

India

Tech Support Engineer

10/2018 - 09/2019

- Offered Level 1 and Level 2 technical support for broadband, leased line, MPLS, VPN, and enterprise connectivity services
- Improved team productivity by 15% by implementing software-based workflow improvements and process optimization initiatives
- Increased system uptime by 15% through timely troubleshooting and resolution of over 50 software and hardware issues
- Managed, troubleshoot, and optimized network infrastructure, software systems, and hardware devices to maintain smooth business operations
- Handled multiple maintenance and support tasks efficiently while meeting tight deadlines and service expectations
- Diagnosed technical issues, provided end-user support, and ensured prompt incident resolution to minimize operational downtime

Greenply Industry Limited

Andhra Pradesh, India

Assistant Engineer

01/2017 - 03/2018

- Led commissioning of India's largest MDF plant, managing installation, testing, and startup for on-time operational success.
- Boosted equipment uptime by 15% through diagnostics and network optimization, significantly reducing production downtime.
- Work together with engineers and contractors to ensure compliance with SOPs, safety, and quality standards during installation.
- Conducted inspections and implemented preventive and corrective measures, enhancing production efficiency and reducing waste.
- Worked closely with Maintenance, Quality Assurance, and Process Engineering teams to enhance productivity and process reliability.
- Supported process optimization initiatives and assisted in operator training, contributing to improved production quality.
- Participated in preventive maintenance planning, ensuring post-maintenance production readiness and sustained optimal operations.

Experience

MASAND INFRATECH

Meerut, India

Graduate Engineer

02/2016 - 12/2016

- Supported erection, installation, and commissioning of equipment, piping systems, adhering to project specifications
- Supervised site activities, ensuring fabrication alignments, welding, and quality compliance
- Assisted in pre-commissioning and commissioning, adhering to ASME codes and safety standards
- Prepared and sustained progress, inspection reports, ensuring accuracy and transparency
- Coordinated material inspection, QA/QC compliance, upholding project quality standards
- Identified and resolved site deviations, supporting issue resolution and project execution
- Assisted in planning, scheduling, and resource allocation for timely project completion

Education

SLBS Engineering College
