

Jaydeep Babubhai Ajani

Address: 56, Shree Satvam Bungalows, Morbi Road, Rajkot-360003, Gujarat, India

Phone: +91 83470 50997

Email: jaydeepajani1963@gmail.com

Professional Summary

Electrical Engineer with experience in CNC automation and PLC programming, seeking a challenging role in the automation industry. Strong background in Fanuc & Mitsubishi PLC systems, CNC machine commissioning, HMI development, and troubleshooting.

Professional Experience

Jyoti CNC Automation Ltd., Rajkot, Gujarat, India

Junior Engineer, R&D Department

March 2022 – Present

- Develop, test, and standardize PLC ladder logic for CNC machines using Fanuc and Mitsubishi controllers, including interlocks, safety logic, alarm handling, and sequence control.
- Hands-on experience with Huron Graffenstaden(France) CNC machines, configured and commissioned according to CE safety standards and European machine directives.
- Experience with multi-path, multi-axis CNC machines, including synchronized axis control and coordinated machining operations.
- Perform full CNC machine commissioning: spindle drives, servo axes, ATC systems, rotary/tilting tables, bar feeders, gantry robots, hydraulic and pneumatic units.
- Integrate CNC controllers with field devices via I/O mapping, parameter configuration, and signal validation.
- Design and implement Fanuc HMI screens with real-time diagnostics, alarms, and maintenance pages.
- Develop custom PLC function blocks for special customer automation requirements.
- Optimize PLC and HMI fault logic, reducing unplanned machine downtime by ~20% and shortening restart time.
- Perform FAT/SAT testing, root-cause analysis, and onsite troubleshooting for machine failures.
- Create and maintain electrical commissioning manuals, PLC alarm lists, configuration procedures, and technical data sheets.
- Provide advanced technical support to service and maintenance teams to improve machine availability.
- Work cross-functionally with mechanical, electrical, and software teams during machine development and ramp-up.

Education

Bachelor of Engineering, Electrical Engineering

Marwadi Engineering College, Rajkot, Gujarat, India

Graduated July 2019

C.G.P.A: 8.66

Technical Skills

PLC Software

- Fanuc Ladder
- GX Works
- Fanuc NC Guide (CNC Simulator)
- Fanuc Servo Guide
- Fanuc Picture

- Office Tools

- Microsoft Office Suite.

Soft Skills

- Analytical & problem solving
- Self-motivated
- Process-orientated (5S)

Projects

- [Arduino based smart greenhouse system University Project](#)

Developed a system to control climate parameters such as temperature, humidity, moisture, and light intensity. We developed a system using Arduino and IOT controller. We collected continuous data via a mobile application.

- [Double Column CNC Machine \(Huron Graffenstaden\)](#)

Automation and Preprogramming of a double-column machining center equipped with:

- Automatic Head Changer (AHC) with HV/LV type Automatic Tool Changer (ATC) for horizontal and vertical heads.
 - Integrated safety and interlock logic as per CE standards.
 - Full PLC, HMI, and servo integration.

Certifications

- Bosch Rexroth PLC
- Soft skills development (SIG)
- 5S
